TfL monitors the compliance rates of vehicles within the ULEZ.

The ULEZ emission standards for Nitrogen Oxides (NOx) and Particulate Matter (PM) are:

1. Motorcycles, motor tricycles and quadricycles – Euro 3 (NOx)
2. Cars, private hire vehicles, vans and specialist vehicles (up to 3.5 tonnes) and minibuses (up to 5 tonnes) – Euro 4 Petrol (NOx), Euro 6 Diesel (NOx & PM)

Average daily non-UK PCNs issued ⁶	108	49	33

A Penalty Charge Notice (PCN) is the formal notification sent when our records show that a vehicle was photographed in the ULEZ and we have no record of payment of the ULEZ Charge and it is neither exempt nor registered for a 100 per cent discount.

Should you receive a PCN you have a right to contest it. This may be done through the Representation and Appeals process. Further details of how to make representations against the PCN will be provided on all PCNs issued. If the representation is rejected, you can then make an appeal to London Tribunals, an independent body.

Representation and appeal volumes take several months to build so these are not currently included within this factsheet, but this activity will be incorporated for the expanded ULEZ zone as soon as stable data becomes available.

¹ From 25 October 2021, the ULEZ expanded from central London to create a single, larger zone up to, but not including, the North Circular Road (A406) and South Circular Road (A205).

² The daily charge for motorcycles, cars, vans and minibuses that do not meet the ULEZ emission standards is £12.50.

³ Road User Charging operate a blended call centre, so call volumes cover Congestion Charging and Low Emission Zone, as well as ULEZ.

⁴ Vehicle detections are subject to validation processes (known as settlement) prior to charging and therefore the volume of charged vehicles is always lower than that based on initial detections. As a result of system changes at the time of expansion, vehicle detection volumes since the expansion are reported prior to completion of the settlement process.

⁵ Non-chargeable vehicles include those that benefit from an extended grace period, including community transport minibuses and disabled tax class vehicles, vehicles that benefit from one of the limited number of exemptions or discounts, vehicles that were detected on a diversion route, and vehicles for which no enforcement action could be taken based on available data.

⁶ The penalty charge for motorcycles, cars, vans and minibuses that do not meet the ULEZ emission standards and do not pay to travel in the zone is £160 (reduced to £80 if paid within 14 days).
