Third Party Works Co-ordinator	London Tramlink (LTK) is the business unit within London Rail responsible for procuring the safe and efficient operation of London's tramways, plus the strategic development of improvements to the tramway network and the delivery of new tramway projects. One of the prime functions of the LTK is to provide a single point of focus for the ownership and operation of Trams in London of which Tramlink is the only system currently in operation. Tramlink is a 28km light rail network serving Croydon, a major population centre in the south of Greater London, and the surrounding areas. Tramlink has an asset base of £200m, and annual ridership of some 27m and annual revenue of in excess of £20m LTK is also responsible for delivering future tramway developments, including enhancements and extensions to Tramlink, and the procurement, construction and operation of new schemes such as the 16km Cross River Tram scheme. The Third Party Works Coordinator (TPWC) is responsible to the Head of Infrastructure Management for ensuring that works undertaken on or near the Tramlink system are technically acceptable and that they do not compromise Tramlink system safety, structural integrity or cause unacceptable operational delays during construction and subsequent use. The Projects and Development Team will respond to Planning Applications. The TPWC will review planning applications and advise the Transport Planner of any issues that would be unacceptable from an engineering or operational performance perspective that should be included in the response. The TPWC will be responsible for administering and maintaining records of third party applications for works on or about the tramway and for ensuring that applications are dealt with in a timely and professional manner. Where costs will be incurred by LT in addressing or providing protection or other safety support to third part applicants the TPWC will be responsible for ensuring that these costs are recovered from the applicant.
