Asset Data Support	London Underground's operational assets are changed on a regular basis by resources in Asset Operations, Renewals & Enhancements and the Major Projects Directorate. The role of the Asset Data Handover Support Technician is to work with key stakeholders to prepare asset data changes for loading and to ensure changes are recorded in the Asset Management System(s)	£50,000 - £54,999	N/A	N/A	NIL	0
Asset Data Systems Specialist	London Underground's operational assets are changed on a regular basis by resources in Asset Operations, Renewals & Enhancements and the Major Projects Directorate. In order to ensure the Asset Management Systems reflect these changes, the Asset Data Systems Support Manager maintains the Asset and Location Register design, including the asset data integrity rules and develops and supports any data load templates and tools as required (either directly or through 3rd Party support). This role is critical to maintaining the integrity of Asset Data in the Asset Management systems and the contribution the system plays to the Operational and Strategic arms of the Business. The role is a highly technical specialist role requiring an excellent knowledge of Ellipse and/or Maximo and the business/engineering environment that Ellipse/Maximo supports The role provides guidance to the business in understanding the master data configuration of Ellipse/Maximo. The role will provide an expert asset data management service to the business, coaching and mentoring other data management roles to ensure efficient and effective data management approaches are maintained. Change & User Adoption Manager	"Digital Workplace" describes the set of ubiquitous IT tools and capabilities used to help employees perform their roles. One of the key initiatives to support a more moderr TfL is the Digital Workplace Transformation. Led by Tech & Data, and leveraging a pan TfL network of Change Leads and Champions, this initiative will modernise and continually evolve the entire end-user IT environment (desktops, office software, mobile devices, printing, telephony etc). This is to improve communication and collaboration opportunities for the workforce, and provide tools to help employees work smarter, be more agile and productive. Change Management, and carefully orchestrated User Adoption plans are critical to success. The role holder will be part of a small team that will deliver effective change management and stakeholder engagement for the Digital Workplace Transformation ensuring that:- • Affected business areas are prepared for the transition to the new and improved IT tools • Change is delivered in a way that supports business priorities and inspires employees to take full advantage • Risks are identified and mitigated, and benefits are realised in all areas.	-	£1 - £4,999	N/A	NIL	0

Improvement Lead (Network Ops)	Supporting the Implementation Manager (Network Ops), the role is responsible for delivering system improvements and embedding change across Network Operations. The role is seeking to improve operational capabilities using its systems. To work with operational teams to translate business problems into system solutions that help achieve business objectives. Engaging with relevant stakeholders to develop solutions in the core systems that focus on operational processes and end user needs, but deliver outputs that support corporate objectives. Working closely with stakeholders to ensure business requirements are captured and documented appropriately. Ensuring solutions are effectively designed and are operated consistently across the business area. Building relationships with the user base will be essential in driving effective change. Ensure system improvements are delivered in a sustainable, efficient and effective way, this must include change management considerations around training, floor walking, ongoing support and a post change review of outcomes and objectives realisation.	£50,000 - £54,999	N/A	N/A	NIL	0

PM 3/4 Inspector	Deliver planned visual and measured inspections, PM3 Track Inspections Plain Line and PM4 Junction Work Inspections as directed: safely, in accordance with your training, and compliant with track maintenance standards. Classify and prioritise items in the work bank. Take mitigating action as required, including use of the procedure for Temporary Approved Non Compliance. Act as in charge when required in accordance with company guidelines.	£50,000 - £54,999	N/A	N/A	NIL	0
PM 3/4 Inspector	Delivery of the visual and measured PM4 Junction Work Inspection to program and maintain compliance with visual and measured Inspection standards e.g. 1-158 Track-Inspections & Maintenance standard, 2-TLL 049 Track Supervisory & Management Inspections-Plain Line, 1-159 Track- Dimensions & Tolerances, E8301 Safety Inspections & Supplementary measures. To mitigate inspections and defects using the Temporary Approved Non Compliance P351 process and escalate all non-compliances in an efficient and timely manner. Undertake running repairs to reduce the impact of loose or missing components on the overall asset condition. The post holder will have budgetary responsibilities for the Maintenance Plan to approximately £0.2m per annum and manage a workforce of circa 2 direct and 2 subcontract employees. The interfaces with the post holder are the Track Asset Engineers, Zonal Maintenance Managers, Inspection and Production Supervisors, Health, Safety & Quality Advisors and the post holder is expected to maintain positive relationships with all parties. The key external interfaces will be with the client (London Underground) and Suppliers the post holder is expected to develop and maintain positive relationships with these parties.		N/A	N/A	NIL	0
