

KEY PLAN

1. Segregate construction activities from pedestrians & adjacent live rails.	1. Falling from height. Existing services within vicinity of works.	1. Falling from height. Risk of asbestos. Risk of lead content & possibility of other toxic substances in existing paint finishes.
2. Existing services within vicinity of works.	2. Existing services within vicinity of works.	3. Risk of lead content & possibility of other toxic substances in existing paint finishes.
3. Isolate / protect all buried substances prior to works.	3. Isolate / protect all buried substances prior to works.	4. Existing live services within vicinity of works.
4. Safety measures for excavations, working at height, traffic areas & proximity to live rail.	4. Safety measures for excavations, working at height, traffic areas & proximity to live rail.	5. Safety measures for working in close proximity to live rail.
5. Existing embankment, precautions required during excavation.	5. Existing embankment, precautions required during excavation.	

CONSTRUCTION RISKS **MAINTENANCE / CLEANING RISKS** **DEMOLITION / ADAPTATION RISKS**

In addition to the hazards risks normally associated with the type of works detailed on this drawing take note of the above. It is assumed that all works on this drawing will be carried out by a competent contractor working where appropriate, to an appropriate method statement.
