		Engineering Manager	Providing engineering leadership through the Chief Engineer's Group to the Framework Design Consultants (FDCs) to check quality and delivery to schedule of contractor clarifications/proposed changes of Employer's design. To confirm with the support of the FDC, the compatibility of the contractors' temporary works submissions with FDC permanent works design.	£75,000 - £79,999
		Engineering Manager	Providing engineering leadership through the Chief Engineer's Group to the Framework Design Consultants (FDCs) to check quality and delivery to schedule of contractor clarifications/proposed changes of Employer's design. To confirm with the support of the FDC, the compatibility of the contractors' temporary works submissions with FDC permanent works design.	£75,000 - £79,999

Forename	Surname	Job Title	Role Purpose	Salary Band
		Head of Technical Assurance	To ensure the CRL Programme demonstrates appropriate levels of Technical Assurance to its Sponsors, future Operators and appropriate regulatory authorities. To own the Crossrail's Technical Assurance strategies and procedures and to ensure they clearly define responsibilities for delivering Technical Assurance across the CRL Programme; including Civil, Station, Rail System, On Network, and Depot and Rolling Stock works. To ensure the progressive assurance evidence generated by CRL and Delivery Partners is available to provide confidence to the Operators and Sponsors that their Technical Assurance requirements will be delivered.	£75,000 - £79,999
		Head of HR	To lead the HR and Facilities team within Crossrail. To lead the interpretation of business requirements into HR policy and practice, effectively underpinning business strategy and enabling the achievement of priorities through effective people management. To provide hands-on support to line management in managing the people resource which supports culture change, improving current people management practices, which underpin business efficiency and effectiveness service. This role will also champion improvements in HR services and people management processes. This role is both internally and externally focused and provides the key interface between HR and Crossrail's line management, employees and partner organisations. This role is also responsible for providing a day to day facilities service to the business.	£75,000 - £79,999
		Lead Agreements Manager	Reporting to the Head of Commercial Services, leading the team of agreements managers and responsible for ensuring that appropriate agreements are in place to allow the successful delivery of the construction phase and the efficient transition to railway operations. Maintaining the programme wide and lifecycle perspective of the relationship between agreements, understanding the risk allocation between parties and horizon scanning for commercial risks.	£80,000 - £84,999
		Prime Contract Manager	To act as the Contract Manager for the Project Delivery Partner and Programme Partner Contracts.	£80,000 - £84,999
		Project Solicitor	To deliver an effective and efficient legal service to support the achievement of CRL's corporate objectives.	£80,000 - £84,999
Niamh	O'Sullivan	Head of Secretariat	Manage the internal governance arrangements for CRL to ensure that the arrangements for controlling material decisions in the company are appropriate, that all decisions made by the company are in line with these arrangements and that a proper audit trail exists for them, and that supporting processes and information evolve to be of a quality appropriate to the current stage of the programme. Key requirements are to ensure the smooth running of the Crossrail Board, Board Committees including Executive Committee, other governance meetings, and Programme Board, including obtaining, reviewing, producing and distributing timely documentation prepared to a consistent and appropriate standard.	£80,000 - £84,999
		Commercial & Finance Manager	Reporting to the Head of Rolling Stock and Depot (RSD), the Commercial and Financial Manager for RSD leads on commercial and financial aspects of the RSD procurement. This includes managing financial, commercial and legal advisors to develop key procurement and contractual arrangements for the procurement of rolling stock, depot, maintenance and private finance for the Crossrail Project.	£80,000 - £84,999
		Application Development Team Lead	The Application Development Team Lead will be responsible for ensuring that all bespoke applications are built on a consistent framework and that a team of developers is created to work within that framework. The job holder will be expected to ensure applications meet business requirements efficiently and in line with the Crossrail application architecture and principles.	£80,000 - £84,999
		Project Manager - OSD	Responsible for managing the delivery of high quality, over site developments, optimised to achieve maximum financial returns and fully integrated with the operational works on both collaborative and non-collaborative sites.	£80,000 - £84,999
Sam	Donovan	Ilford Yard Project Manager	The Ilford Yard Project Manager is directly responsible for the design and delivery of the desired project objectives and benefits on behalf of the Crossrail Sponsors for the Ilford Yard Stabling Project.	£80,000 - £84,999
		Project Business Manager	To implement project level processes and activities that relate to the commercial management of the project including, but not limited to, monitoring of procurement, cost, finance, schedule, risk management, compliance with contractual terms, cost verification, project staffing registers / forecasts and the timely resolution of contract change.	£80,000 - £84,999
		Rolling Stock & Depot Manager	To provide professional leadership for all technical aspects of the Rolling Stock and Depot Facilities works of the Crossrail Project. The role is to oversee the discipline execution and provide Client direction and input required for the delivery of the rolling stock and depot works to the project quality requirements and within the discipline budget and schedule.	£80,000 - £84,999
		NR & RSD Assurance Manager	Responsible for maintaining the Delivery Assurance Plans for Central Section, Surface and Rolling Stock & Depot and ensuring that the Crossrail Delivery Teams develop and implement the management system content for implementation of these plans. To function as gatekeeper (reporting to Head of Quality Delivery) for the technical assurance gateway that releases Crossrail's employer's designs or specifications to contractors for further design development or construction.	£80,000 - £84,999
		Procurement Leader	Responsible for the delivery of the project procurement within time constraints by pulling together and managing the procurement process to attain best value from inception to award and handover to Project Management and the Implementation team.	£85,000 - £89,999
		Cost Assurance Manager	The purpose of this role is for an experienced, qualified accountant to manage the assurance of costs within Crossrail's capital investment programme. They should be confident and credible when working with senior managers and third parties. They should also be a strong communicator both in writing and orally, able to convey financial information in a clear, structured manner.	£85,000 - £89,999
		Head of Logistics	Manage the logistics team and ensure the development and implementation of a fit-for-purpose logistics strategy to support the west, central and east Project Delivery Areas.	£85,000 - £89,999
		Lead Contract Administrator	Support the Project Business Manager in relation to the development and implementation of a contract management program for the project consistent with contracts management policies and work processes, procedures and systems. Checking commercial and contract issues are dealt with at the lowest level cognisant with the delegated authorities.	£85,000 - £89,999
		Head of Risk Management	Defining Crossrail's Policy and Strategy for Risk Management, for reporting upwards to the CRL Executive and the Board and outwards to key stakeholders such as the Project Representative, Joint Sponsors Team, Transport for London (TfL), and HM Treasury. Also for producing the overall Crossrail Quantitative Risk Assessment of cost and schedule and for providing risk management support to the CRL Executive and the Programme Directorate. Also for providing leadership and guidance to risk managers across the Crossrail Programme.	£85,000 - £89,999
		Engineering Manager	Providing engineering leadership through the Chief Engineer's Group to the Framework Design Consultants (FDCs) to check quality and delivery to schedule of contractor clarifications/proposed changes of Employer's design. To confirm with the support of the FDC, the compatibility of the contractors' temporary works submissions with FDC permanent works design. Left service 15th June 2012	£85,000 - £89,999
		Completion Manager	To establish and implement an independent function to report on all field quality matters in design, construction, testing and commissioning and in particular to oversee and ensure consistent independent reporting from the field teams on quality issues, records and certification.	£85,000 - £89,999
		Head of Sustainability & Consents	Lead the planning, environment, traffic and sustainability functions for the Crossrail programme. Implement the detailed consents strategies and regimes for Crossrail construction and permanent works. Coordinate the sustainability performance of the Crossrail programme.	£85,000 - £89,999
		Head of Requirements & Integration	To manage a team in the development and implementation of Requirements and Integration Management to ensure a World Class level of process, tools and expertise is provided across the Crossrail programme.	£85,000 - £89,999
		Head of Contract Admin Policy	To provide assurance that all contracts entered into by CRL are operated and administered strictly in accordance with the terms of those contracts and in a manner that is consistent with CRL policy and governance arrangements. To manage Employer reserved functions under the CRL NEC contracts and to manage CRL reserved functions under third party agreements. Ensure as far as possible that CRL are obtaining best affordable value in delivering the Crossrail project objectives and that commercial risk is properly considered and managed by CRL through its contract arrangements. To manage the CRL Prime Contracts.	£90,000 - £94,999
		Project Solicitor	To deliver an effective and efficient legal service to support the achievement of CRL's corporate objectives.	£90,000 - £94,999
		Project Solicitor	To deliver an effective and efficient legal service to support the achievement of CRL's corporate objectives.	£90,000 - £94,999
		Head of Business Systems	The Head of Business Systems is the overall custodian of Crossrail's business systems (applications) landscape and data architecture. The role is responsible for ensuring the successful provisioning, deployment and integration of cost-effective business systems and reporting solutions that meet the needs of the business.	£90,000 - £94,999
		Head of Technology Systems	The role of the Head of Technology Systems is to ensure the successful provisioning and deployment of cost-effective technical and specialist applications (e.g. CAD, engineering, property/estate management, etc.), IT infrastructures and IT infrastructure applications (e.g. Windows, Microsoft Office) to all Crossrail offices, construction sites and third-party sites.	£90,000 - £94,999
		Development Manager	Principal responsibility for procuring, leading and directing a professional team in planning, promoting, managing and delivering all Crossrail Oversight Developments (OSDs), where Crossrail does not have a collaborative partner (non-collaboration sites), ensuring schemes are fully integrated with the stations and other operational works whilst delivering maximum financial returns and high quality design.	£90,000 - £94,999
Michael	Kilby	Head of System Safety	Develop and lead on strategies, plans and/or procedures for the delivery of Engineering Safety Management across the Project such that safety risks associated with the design are demonstrated to be tolerable and as low as reasonably practicable (ALARP), such that the associated System Engineering Safety Justifications can be developed for acceptance by future Duty Holders and Regulatory bodies as appropriate. Lead the implementation of plans and procedures to enable the Project to comply with the Railways Interoperability Regs (RIR).	£90,000 - £94,999
		Lead Route Control Centre Engineer	To manage the delivery of systems of the Route Control Centre & Backup Control Facility to CRL requirements for safety, time, cost and quality. Provide the Lead on the engineering aspects of the integration of the communication systems at Crossrail/LUL interchange stations.	£90,000 - £94,999
		Head of Organisational Effectiveness	To lead on all organisational change and capability and to be a catalyst for cultural, behavioural and business performance change	£90,000 - £94,999
		Head of Skills & Employment	Ensuring our contractors have the right people, with the right skills, at the right time, is critical to the successful delivery of Crossrail. Whilst this responsibility rests primarily with the contractors Crossrail has an obligation to ensure all workers on the project are adequately trained to perform their duties effectively and safely. The post holder is required to provide assurance that contractors' staff are suitably skilled and competent and where necessary facilitate the provision of training by co-ordinating and arranging contributions from public and other agencies. To put in place arrangements for, and co-ordinate the delivery of, Crossrail's commitments to apprenticeships, training courses, qualifications and safety passports as required. Left service 28th September 2012	£90,000 - £94,999
		TUCA Manager	To lead and provide effective relationship management at the Tunnelling and Underground Construction Academy	£90,000 - £94,999
		Project Solicitor	To deliver an effective and efficient legal service to support the achievement of CRL's corporate objectives.	£95,000 - £99,999
		Interface Manager Utilities	Managing the interface between the delivery team(s) and one or more third party team (LU/LO/NR/DLR), including access, operational, infrastructure protection, engineering and implementation functions in accordance with the relevant management plan.	£95,000 - £99,999
		Project Business Manager	To implement project level processes and activities that relate to the commercial management of the project including, but not limited to, monitoring of procurement, cost, finance, schedule, risk management, compliance with contractual terms, cost verification, project staffing registers / forecasts and the timely resolution of contract change.	£95,000 - £99,999
		Operation Business Manager	Deliver and manage the complete set of activities for the operations, rolling stock and maintenance work streams within Crossrail programme, budgets and costs to ensure they deliver to time and cost within Crossrail's governance and overall programme and budget.	£95,000 - £99,999
		Head of Architecture	To act as the head of discipline for all architectural matters under the authority of the Chief Engineer. To provide architectural leadership for the Crossrail Programme and to ensure a world class level of technical performance is provided.	£95,000 - £99,999
Paul	Chatten	TUCA Project Manager	To lead a team that will design, plan, procure, construct and commission a Tunnelling and Underground Construction Academy (TUCA) on behalf of Crossrail and key stakeholders. TUCA will provide training, education, skills development, qualifications in tunnelling and other allied and specialist trades. Working with the client to ensure designs and specifications will enable the academy when built to deliver training that meets British and International tunnelling construction and safety standards. Left service 13th April 2012	£95,000 - £99,999
Glen	Snowden	Head of Rolling Stock & Depot	Reporting to the Commercial Director, the Head of Rolling Stock and Depot (RSD) leads the RSD Procurement team and is responsible on the overall management and procurement of rolling stock, depot, maintenance and private finance for the Crossrail Project. The RSD is not part of CRL's funding for the project and consequently separate funding and counterparty arrangements are proposed. Consequently, it is acknowledged that the Head of Rolling Stock and Depot has accountabilities to CRL, Sponsors and TfL and these are reflected in the separate governance arrangements which exist for the procurement of RSD from the rest of the Crossrail project.	£100,000 - £104,999
		Head of External Affairs	Deliver and lead the overarching external communications and public relations policy, strategy and delivery for Crossrail Limited (CRL).	£100,000 - £104,999
		Head of Urban Integration	Ensure that Crossrail stations are fully integrated, in terms of urban design and transport, by managing the interface between the project, TfL, GLA, the boroughs, developers and other stakeholders.	£100,000 - £104,999
		Head of Railway Operations	To ensure that there is a scope in place defining a railway which meets the Sponsor's Requirements. To Manage the co-ordinated development with duty holders of core operating philosophies and requirements leading the operational response in respect to Infrastructure Maintenance, Command and Control, Systems, Rolling Stock and Train crew in order that a high performing, safe and value for money railway is realised. Establish pathway to full operational preparedness to enable a regular and reliable train service to be operated from line opening through translation of design into process infrastructure and manpower. Demonstrate to Sponsors that their Requirements will be met. Review emerging design from an Operational Perspective.	£100,000 - £104,999
		Head of Over Site Development	Responsible for leading the team in planning, promoting, managing and delivering all Crossrail over site developments (OSDs), ensuring schemes are fully integrated with the operational works whilst delivering maximum financial returns through high quality design.	£110,000 - £114,999
		Head of Commercial Services	Reporting to the Commercial Director, the Head of Commercial Services leads the Commercial Services team whose purpose is, to define the CRL Commercial Strategy, ensure that appropriate commercial agreements are in place to allow CRL to execute the project, to support the delivery team in the application of the agreements, and demonstrate compliance with our commercial obligations.	£115,000 - £119,999
		Head of Financial Control & Cost Assur	Maintain a strong financial controls environment (including through the development and updating of the SAP finance system and of Crossrail's Finance Manual and associated procedure.
