SCHEDULE 2 THE ROUTES

- 1 In order to provide the Services, the Train Operator has permission to use the Routes specified in Column 1 of Table 2.1, Table 2.2 and Table 2.6 of Schedule 5.¹
- 2 In order to make Ancillary Movements and/or NR Ancillary Movements, the Train Operator has permission to use any reasonable route on the CCOS.
- 3 In order to Stable railway vehicles on the CCOS, the Train Operator has permission to use any reasonable location.
- 4 Use of all Routes is subject to the CCOS Network Code.

¹ RfL(I) note: No diversionary Routes are available on CCOS. Train Operators would need to negotiate alternative arrangements with Network Rail in relation to diversionary Routes (such as via the North London Line).

SCHEDULE 3 COLLATERAL AGREEMENTS

- 1 A usage agreement between (1) the Train Operator and (2) London Underground Limited granting the Train Operator permission to use the following stations:

[Bond Street;

Farringdon;

Liverpool Street (LUL);

Tottenham Court Road; and

Whitechapel.]

[Delete as applicable.]

- 2 An access agreement between (1) the Train Operator and (2) RfL(l) granting the Train Operator permission to use the following stations:

[Canary Wharf;

Custom House;

Paddington (CCOS); and

Woolwich.]

[Delete as applicable.]

- 3 An access agreement between (1) the Train Operator and (2) [relevant counterparty] granting the Train Operator permission to use Abbey Wood station. ***[Delete as applicable.]***

- 4 An access agreement between (1) the Train Operator and (2) Network Rail granting the Train Operator permission to use Network Rail's track from:

[Pudding Mill Lane Junction Connection Point; and

Westbourne Park Junction Connection Point.²]

[Delete as applicable.]

² RfL(l) note: The Pudding Mill Lane Junction Connection Point and Westbourne Park Junction Connection Point are each operationally signalled, to allow transition of Services between the CCOS and the NR Network. Abbey Wood is not included here. Whilst there will be a connection between the CCOS and the NR Network at Abbey Wood, it will not be operationally signalled, meaning trains can only move from the CCOS to the NR Network when a Restriction of Use is in place. Accordingly, there is no requirement for an access agreement to be in place relating to the use of Network Rail's track adjoining the CCOS at Abbey Wood.

- 5 An accession agreement under which the Train Operator agrees to become a party to the Claims Allocation and Handling Agreement.
- 6 [A concession agreement between (1) the Train Operator and (2) Rail for London Limited under which the concessionaire undertakes to provide or procure the provision of all or a material part of the Services.]

SCHEDULE 4 COMPENSATION FOR RESTRICTIONS OF USE

1 Definitions

1.1 Defined terms

In this Schedule 4, unless the context otherwise requires:

- "Aggregate IRC/FCC"** means, in respect of any Relevant Year, the aggregate amount of the IRC and the FCC (each as defined in Schedule 7) anticipated as being payable by the Train Operator during that Relevant Year calculated on the basis:
- (a) described in Schedule 7; and
 - (b) that all capacity which is reserved by the Train Operator in Schedule 5 of this Contract is timetabled in the Applicable Timetable;
- "CCOS Asset Management Plan"** has the meaning ascribed to it in Part 3 of Schedule 7;
- "Competent Authority Rate"** means the amount payable by RfL(I) to the Train Operator in respect of a Competent Authority Restriction of Use as calculated in accordance with paragraph 7;
- "Corresponding Day Timetable"** means, in relation to a Corresponding Day, the New Working Timetable applicable to the relevant Timetable Period or such other timetable as may be agreed between the parties or otherwise determined in accordance with paragraph 6;
- "Direct Loss"** means the aggregate amount of the Train Operator's demonstrable:
- (a)
 - (i) bus and taxi hire costs;
 - (ii) publicity costs;
 - (iii) train planning and diagramming costs;
 - (iv) other costs directly related to the organisation and management of the Train Operator's response to a Restriction of Use,

reasonably incurred by the Train Operator as a result of a Restriction of Use, adjusted by:

- (A) adding any increase in costs which results from increases in train usage; and
- (B) deducting any decrease in costs which results from decreases in train usage,

(b) loss of revenue directly resulting from the Restriction of Use,

but (in each case):

- (i) only to the extent that the Train Operator has used reasonable endeavours to mitigate such costs or losses and in any event excluding any consequential losses; and
- (ii) not including publicity costs, to the extent that such costs relate to publicity which is similar to publicity undertaken by RfL(I) or an Affiliate of RfL(I) (including TfL) in relation to that Restriction of Use;

"Operator Restriction of Use" means a Restriction of Use of the type referred to in paragraph 2.3;

"Possessions Allowance" means 104 hours Saturday to Sunday planned disruptive possessions in a Timetable Year on the CCOS, the dates and times of such disruptive possessions as may be set out in the Applicable CCOS Engineering Access Statement agreed or determined pursuant to Part D of the CCOS Network Code;

"Relevant Costs" means, in respect of any Competent Authority Restriction of Use, all costs, expenses and losses (including loss of profit, loss of revenue and consequential losses) incurred by RfL(I) and/or any train operator using the CCOS (including the Train Operator) as a consequence of the taking of that Competent Authority

Restriction of Use (but without double counting);

"Restriction of Use Day" means a Day on which a RfL(I) Restriction of Use is taken or deemed to be taken;

"RfL(I) Restriction of Use" means any Restriction of Use other than an Operator Restriction of Use or a Competent Authority Restriction of Use; and

"Week" means a period commencing at 0200:00 hours on any Sunday and ending at 0159:59 hours on the next following Sunday.

1.2 *Interpretation*

A Restriction of Use shall be deemed to be taken if and to the extent it results in any difference between timetables of the type referred to in the definition of "Restriction of Use". For these purposes, a difference between timetables shall be deemed to be due to a Restriction of Use where the difference was initially the direct result of the Restriction of Use being notified, whether or not the Restriction of Use was subsequently cancelled in whole or in part.

1.3 *Suspension Notices*

Wherever a Suspension Notice is in force, the effects of that Suspension Notice shall be the subject of Schedule 6 and not of this Schedule 4. A Restriction of Use shall only be treated as a Restriction of Use to the extent that it involves a Restriction of Use of all or any part of the Routes which is not covered by the restriction under that Suspension Notice.

2 **Application of this Part**

2.1 *Entry into effect*

This Schedule 4 shall apply in respect of Restrictions of Use.

2.2 *Applicable CCOS Engineering Access Statement and the CCOS Network Code*

The provisions of this Schedule 4 shall be without prejudice to:

- (a) RfL(I)'s right to take Restrictions of Use under or pursuant to the Applicable CCOS Engineering Access Statement;
- (b) the establishment of any amended Working Timetable under Part H of the CCOS Network Code; and
- (c) any rights pursuant to the CCOS Network Code that the Train Operator may have to challenge any decision of RfL(I).

2.3 *Operator Restriction of Use*

RfL(I) shall not be obliged to make any payments to the Train Operator for any one or more Restrictions of Use to the extent:

- (a) required as a result of any damage to RfL(I) or Environmental Damage which in each case:
 - (i) arises wholly or mainly from the operations of the Train Operator or its failure to comply with its obligations under this Contract; and
 - (ii) RfL(I) demonstrates, is in excess of fair wear and tear arising from use of the CCOS by the Train Operator; or
- (b) requested by the Train Operator (other than for the purposes of inspection, maintenance, renewal or repair of the CCOS); or
- (c) required in connection with a Network Change proposed by the Train Operator under Condition G3; or
- (d) that the Restriction of Use is within the Possessions Allowance.

2.4 *RfL(I) payments*

Subject to paragraphs 2.3 and 9, RfL(I) shall make payments to the Train Operator (in accordance with the procedure in paragraph 8) in respect of Restrictions of Use calculated on the following basis:

- (a) for each RfL(I) Restriction of Use, in accordance with paragraph 3; and
- (b) for each Competent Authority Restriction of Use, in accordance with paragraph 7.

3 **Compensation for RfL(I) Restrictions of Use**

Subject to paragraphs 2.3 and 9, RfL(I) shall, in respect of each RfL(I) Restriction of Use, pay to the Train Operator the Direct Losses incurred by the Train Operator as a consequence of such RfL(I) Restriction of Use.

4 **CCOS Asset Management Plan**

- 4.1 RfL(I) shall provide a copy of the CCOS Asset Management Plan to the Train Operator within 10 Working Days of the Effective Date and shall provide copies of any material changes proposed to the CCOS Asset Management Plan to the Train Operator, identifying where these may result in requirements for Restrictions of Use outside of the Possessions Allowance.

- 4.2** The Train Operator shall be entitled to review and comment on the CCOS Asset Management Plan and on any proposed material changes to the CCOS Asset Management Plan submitted by RfL(I). RfL(I) shall give reasonable consideration to any such comments, in particular where they relate to possible requirements for a Restriction of Use outside of the Possessions Allowance and shall notify the Train Operator of its response to such comments as soon as reasonably practicable.

5 Schedule 8 Application

If and to the extent that a RfL(I) Restriction of Use is not reflected in the Applicable Timetable for the Restriction of Use Day, the amount of compensation (if any) shall be calculated in accordance with Schedule 8 (to the exclusion of any compensation under Schedule 4).

6 Restriction of Use Day and Corresponding Day

- (a) If, for the purpose of identifying a Corresponding Day, no Day is found under paragraph (a) or (b) of the definition of "**Corresponding Day**" and the parties have failed to reach agreement on the Corresponding Day by the date falling 8 Weeks before the relevant Timetable Change Date then either party may require that the identification of the Corresponding Day be resolved by submission to the CCOS Access Dispute Resolution Rules.
- (b) The relevant Forum's remit shall be that it shall:
 - (i) reach a decision which is fair and reasonable; and
 - (ii) identify the Day in either any version of the Working Timetable or any New Working Timetable notified to the Train Operator on or before D-26, in either case which has been produced in accordance with the CCOS Network Code as at the Restriction of Use Day and which most closely reflects the Services which would have been scheduled on the First Day (as that term is used in the definition of Corresponding Day) but for Restrictions of Use reflected in the New Working Timetable for the First Day.

7 Competent Authority Rate

7.1 Calculations

The Competent Authority Rate shall be calculated as follows:

- (a) where any compensation paid to RfL(I) in relation to a Competent Authority Restriction of Use is sufficient to cover the Relevant Costs of all train operators using the CCOS and of RfL(I), the Relevant Costs of the Train Operator in relation to the Competent Authority Restriction of Use; and

- (b) where such compensation is not so sufficient, such proportion of that compensation as the Train Operator's Relevant Costs bears to the sum of RfL(I)'s Relevant Costs and the Relevant Costs of all train operators using the CCOS in respect of that Competent Authority Restriction of Use.

7.2 *Negotiation of compensation with Competent Authority*

RfL(I) shall use all reasonable endeavours to negotiate with the relevant Competent Authority a level of compensation in respect of the Competent Authority Restriction of Use which is sufficient to ensure that the Train Operator receives compensation for all of its Relevant Costs. RfL(I) shall from time to time consult with the Train Operator and keep the Train Operator informed in reasonable detail of the progress of such negotiations.

7.3 *Notification of Train Operator's Relevant Costs*

- (a) Within 28 days of the end of each Period in which a Competent Authority Restriction of Use is taken, the Train Operator shall supply to RfL(I):
 - (i) details of its Relevant Costs; and

- (b) Save to the extent that the Train Operator supplies details of its Relevant Costs under paragraph 7.3(a), such costs shall not be regarded as Relevant Costs.
- (c) Within 10 days of determination of any Relevant Costs which are supplied under paragraph 7.3(a)(ii) above as not fully determined, the Train Operator shall serve a supplemental notice on RfL(I), including final details of such Relevant Costs.

(c) The aggregate liabilities of RfL(I) and the Train Operator, in respect of any and all compensation for which either is liable to the other under this Schedule 4 in respect of each Period shall, to the extent that such compensation is not under dispute, be set off against each other and the balance (if any) shall be payable by RfL(I) or the Train Operator, as the case may be, within 20 Working Days after the receipt by RfL(I) of the Train Operator's notice in accordance with paragraph 8.1(b).

 within 20 Working Days after receipt of such compensation or 20 Working Days after final determination of all Relevant Costs, whichever is the later.
- (b) Where RfL(I) has received compensation in respect of a Competent Authority Restriction of Use for which the Relevant Costs have not been fully determined within 20 Working Days of receipt of the compensation, RfL(I) shall within 20 Working Days of receipt of the compensation forward to the Train Operator a statement of:
 - (i) all Relevant Costs which have been fully determined;
 - (ii) all Relevant Costs of which RfL(I) is aware and which have not been fully determined;
 - (iii) interim payments already made under paragraph 8.2(c) in respect of that Competent Authority Restriction of Use; and
 - (iv) its proposals for making an interim payment in respect of that compensation.
- (c) Within 20 Working Days after serving the statement under paragraph 8.2(b), RfL(I) shall make an interim payment to the Train Operator in accordance with its proposals.

8.3 *Disputes*

Within 10 Working Days of receipt of a statement under paragraphs 7.3, 7.4, 8.1 or 8.2, the relevant party shall notify the other party of any aspects of the statement which it disputes, giving reasons for any dispute. Save to the extent that disputes are so notified, the relevant party shall be deemed to have agreed the contents of the statement.

8.4 *Dispute resolution*

The procedure for resolving disputes notified under paragraph 8.3 shall be as follows:

- (a) within 5 Working Days of service of any notice under paragraph 8.3, the parties shall meet to discuss the disputed aspects of the statement with a view to resolving all disputes in good faith (the "**first meeting**");
- (b) if, within 5 Working Days of the first meeting, the parties are for any reason still unable to agree the disputed aspects of the statement,

each party shall promptly (and in any event within 5 Working Days) prepare a written summary of the disputed aspects of the statement and the reasons for each such dispute and shall submit the summaries to the senior officer of each party;

9 **Cap on Compensation**

The compensation payable by RfL(I) to the Train Operator in respect of any Restriction of Use (excluding any Competent Authority Restriction of Use) in any Relevant Year shall not exceed an amount equal to the Aggregate IRC/FCC in respect of that Relevant Year.

These footnotes indicate the period within which the interval is to apply.

If Tables 3.1(a) and 3.1(b) are used for AM Peak and PM Peak services, delete the Peak columns.

For TOCs which do not differentiate between Peak and Off-Peak, those columns should be merged and headed "Weekday".

Where it is intended for services to be capable of being flexed only after the standard departure time, to give repeating "clockface" pattern, a positive only flex should be used in column 4, e.g. +2/-0].

depending on the way in which the Train Operator Exercises its rights to Passenger Train Slots, the available capacity on the CCOS may be reduced to a greater extent than the number of Passenger Train Slots to which the Train Operator has Firm Rights or Contingent Rights;

- 7.1.2 if a new train operator proposes to commence passenger rail services on the CCOS, RfL(I) may be entitled to use its Flexing Right in accordance with Part D of the CCOS Network Code to allocate capacity to such new train operator, which may impact on the allocation of capacity to the Train Operator; and
- 7.1.3 in the circumstances contemplated by paragraph 7.1.2 and provided no additional available capacity on the CCOS is allocated by RfL(I), it is not intended that RfL(I) should recover any more than the Aggregate Annual Investment Recovery Charge or the Aggregate Annual Fixed Costs Charge.

7.2 If, following the date of this Contract:

- (a) a new train operator commences passenger rail services on the CCOS; and
- (b) such passenger rail services have not resulted in additional available capacity on the CCOS being allocated because RfL(I) has used its Flexing Right,

the following shall apply:

- (i) RfL(I) shall adjust the values of the Annual Investment Recovery Charge and the Annual Fixed Costs Charge for the applicable Service Groups in Appendix 1 to reflect the number of extra services attributable to the new train operator; so that
- (ii) RfL(I) is able to recover an amount equal to the Aggregate Annual Investment Recovery Charge and the Aggregate Annual Fixed Costs Charge from all train operators using the CCOS.

RfL(I) and the Train Operator shall promptly enter into an amendment to this Contract to incorporate the adjusted values of the Annual Investment Recovery Charge and the Annual Fixed Costs Charge for such Service Groups in columns B and D of Appendix 1 (and such amendment shall be subject to the approval of the ORR).

7.3 If:

- (a) an amendment to this Contract has been made in the circumstances contemplated by paragraph 7.2;
- (b) any train operator subsequently either:
 - (i) ceases to operate passenger rail services on the CCOS; or
 - (ii) operates fewer passenger rail services on the CCOS,

the following shall apply:

- (A) RfL(I) shall adjust the values of the Annual Investment Recovery Charge and the Annual Fixed Costs Charge for the applicable Service Groups in Appendix 1 to reflect the reduced number of services; so that
- (B) RfL(I) can recover an amount equal to the Aggregate Annual Investment Recovery Charge and the Aggregate Annual Fixed Costs Charge from all train operators using the CCOS.

RfL(I) and the Train Operator shall promptly enter into an amendment to this Contract to incorporate the adjusted values of the Annual Investment Recovery Charge and the Annual Fixed Costs Charge for such Service Groups in columns B and D of Appendix 1 (and such amendment shall be subject to the approval of the ORR).

7.4 In this paragraph 7:

"Aggregate Annual Fixed Costs Charge"

means the aggregate of:

- (a) the Annual Fixed Costs Charge payable by the Train Operator under this Contract; and
- (b) the equivalent of the Annual Fixed Costs Charge payable by any other train operator under any other track access agreement with RfL(I) in respect of the CCOS,

calculated without taking into account the proposed adjustment of the number of passenger rail services operating on the CCOS; and

"Aggregate Annual Investment Recovery Charge"

means the aggregate of:

- (a) the Annual Investment Recovery Charge payable by the Train Operator under this Contract; and
- (b) the equivalent of the Annual Investment Recovery Charge payable by any other train operator under any other track access agreement with RfL(I) in respect of the CCOS,

calculated without taking into account the proposed adjustment

of the number of passenger rail services operating on the CCOS.

- 6.1.4 the proposed changes to either of paragraphs (g) or (h) of the definition of Review Provisions do not incentivise RfL(I) to meet the CCOS Asset Management Policy,

then the Train Operator shall promptly notify RfL(I) and any other train operators using the CCOS and the matter shall be referred to Arbitration in accordance with the CCOS ADRR in force at the relevant time to determine that:

- (c) the proposed cost of capital assumption in the calculation of the value of the Annual Investment Recovery Charge, Additional Slot Investment Recovery Charge and/or Further Investment Recovery Charge (as the case may be) is an assumption which a reasonable infrastructure manager of a network equivalent to the CCOS could reasonably make; and/or
- (d) the proposed changes to either of paragraphs (g) or (h) of the definition of Review Provisions do incentivise RfL(I) to meet the CCOS Asset Management Policy,

or

- (e) which changes proposed by RfL(I) to the CCOS Asset Management Strategy, CCOS Asset Management Plan and/or CCOS Renewals Plan in accordance with paragraphs 2.3 or 4.2 (as the case may be) are outside the scope of the CCOS Asset Management Policy; and/or

For the purposes of this Schedule 8:

- 1.2.1 a Train shall be treated as forming a Service only in one Service Group;
- 1.2.2 events in respect of a Service operated by a Train shall be treated as occurring on the Day on which the Train operating that Service is scheduled in the Applicable Timetable either to:
- (a) depart from the first point at which it is to pick up passengers (where the scheduled departure point of that Train is on the CCOS); or

- 1.2.4 reference to Appendices 1 and 2 to this Schedule 8 and to the definitions of RfL(I) SPP Threshold and Train Operator SPP Threshold shall be to Appendices 1 and 2 and to the definitions of RfL(I) SPP Threshold and Train Operator SPP Threshold as may be amended from time to time pursuant to the terms of this Contract.

1.3 Suspension Notices

Whenever a Suspension Notice is in force, the effects of that Suspension Notice shall be the subject of Clause 3.6 and not of this Schedule 8. Accordingly, for the purposes of this Schedule 8:

- 1.3.1 neither RfL(I) nor the Train Operator shall be allocated any responsibility for those effects; and
- 1.3.2 those effects shall not be regarded as causing any Seconds Late or Seconds Delay or Cancelled Stops.

2 Calculation of Unexpected CCOS Journey Time

The Unexpected CCOS Journey Time of a Service shall be calculated as follows:

$$UACJT = ACJT - ECJT$$

where:

UACJT	means the Unexpected CCOS Journey Time in respect of that Service;
ACJT	means the Actual CCOS Journey Time in respect of that Service; and
ECJT	means the Expected CCOS Journey Time in respect of that Service,

provided that if UACJT is a negative number it shall be deemed to be zero.

3 Calculation of Seconds Late

The Seconds Late at a Monitoring Point on a Day shall be derived from the following formula:

$$\text{Seconds Late} = \sum L$$

where:

L in respect of a Service, is the lesser of:

- (a) the Unexpected CCOS Journey Time; and
- (b) the Cap,

Σ is the sum across all Services in the relevant Service Group which are scheduled in the Applicable Timetable to pass that Monitoring Point on that day and which do pass that Monitoring Point.

4 Calculation of Monitoring Point Seconds Delay and Deemed Seconds Delay

4.1 Calculation of Seconds Delay

The Seconds Delay in respect of a Service shall be calculated as follows:

$$SD = MP\text{SD} + DSD$$

where:

SD is the Seconds Delay in respect of that Service;

MPSD is the Monitoring Point Seconds Delay in respect of that Service when the Train operating that Service triggers the Monitoring Point, calculated in accordance with paragraph 4.2; and

DSD is the Deemed Seconds Delay in respect of that Service and that Monitoring Point, calculated in accordance with paragraph 4.3.

4.2 Monitoring Point Seconds Delay

Subject to paragraph 4.4, the Monitoring Point Seconds Delay in respect of a Service when a Train operating that Service triggers the Monitoring Point shall be equal to the number of seconds (rounded down to the nearest whole second) of Unexpected CCOS Journey Time, provided that any Monitoring

Point Seconds Delay which arise from a single incident or a series or related incidents and which are less than 30 seconds in aggregate shall be deemed to be zero.

4.3 *Deemed Seconds Delay – Cancelled Stops*

Subject to paragraph 4.4, in relation to a Service operated by a Train which experiences one or more Cancelled Stops, the Deemed Seconds Delay shall be the deemed number of seconds set out in column B of Appendix 2 in respect of each CCOS Station at which the Service operated by a Train fails to stop to set down or pick up passengers.

4.4 *Relationship between Monitoring Points Seconds Delay and Deemed Seconds Delay*

If a Service operated by a Train enters the CCOS at a Boundary or commences a particular Service on the CCOS but fails (as applicable) to:

- 4.4.1 trigger the Monitoring Point closest to the exit point from the CCOS onto the NR Network at a Boundary (if the destination point of that Train operating that particular Service is on a network other than the CCOS); or
- 4.4.2 trigger the Monitoring Point closest to the destination point of the Service operated by that Train (if the destination point of that Train operating that particular Service is on the CCOS),

for any reason (including a malfunction of the Train) subject to the Cap, the Seconds Delay shall include all of the Monitoring Point Seconds Delay (including any additional seconds required to remove the Train from the CCOS) and the Deemed Seconds Delay in respect of any Cancelled Stops.

4.5 *Services terminated prior to reaching the CCOS*

If a Service scheduled in the Applicable Timetable to be operated by a Train on the CCOS is not actually operated (including where it is terminated on a network other than the CCOS before it reaches the CCOS) it shall be disregarded for all purposes in this Schedule 8.

5 **Recording of Performance Information**

5.1 *Recording of Seconds Delay, Seconds Lateness and Cancelled Stops*

Without prejudice to its obligations under Part B of the CCOS Network Code, RfL(I) shall use the Performance Monitoring System to record for each Day in respect of each Service operated by a Train scheduled in the Applicable Timetable:

- 5.1.1 the time at which the Train operating that Service passes each Monitoring Point;
- 5.1.2 each Cancelled Stop and the incident(s) causing such Cancelled Stop where the incident can be identified;

- 5.1.3 the time at which the Train operating that Service triggers each Recording Point;
- 5.1.4 the Seconds Delay (including both the Deemed Seconds Delay and the Monitoring Point Seconds Delay) for that Service operated by that Train at the Monitoring Point in respect of that Service;
- 5.1.5 where the Monitoring Point Seconds Delay which that Service operated by that Train has accrued since either:
 - (a) the Recording Point closest to the entry point to the CCOS from the NR Network at a Boundary (if the starting point of that Train operating that particular Service was on a network other than the CCOS); or
 - (b) the Recording Point closest to the starting point of the Service operated by that Train (if the starting point of that Train operating that particular Service is on the CCOS),
 (as the case may be) are greater than or equal to thirty seconds:
 - (i) the incident(s) causing each second of any delay included in Monitoring Point Seconds Delay; and
 - (ii) those Monitoring Point Seconds Delay for which RfL(I) is unable to identify a cause.

The provisions of this Schedule 8 which concern the recording of train performance information or which refer to information regarding train performance, and the rights and remedies of the parties in respect of the recording of that information, shall be subject to and interpreted in accordance with the provisions of the CCOS Performance Data Accuracy Code.

5.2 *Recording of allocated responsibility for Seconds Delay*

RfL(I) shall, for each Day and for each Service scheduled in the Applicable Timetable, record separately in the Performance Monitoring System those Monitoring Point Seconds Delay and Deemed Seconds Delay caused to a Train operating that Service by incidents:

- 5.2.1 for which RfL(I) is allocated responsibility in accordance with paragraph 6.2;
- 5.2.2 for which the Train Operator is allocated responsibility in accordance with paragraph 6.3;
- 5.2.3 for which neither party is allocated responsibility, in accordance with paragraph 6.4;
- 5.2.4 for which no cause can be identified; and
- 5.2.5 which are Planned Incidents.

5.3 *Failed Recording and Monitoring Points*

Without prejudice to its obligations under Part B of the CCOS Network Code, RfL(I) shall use all reasonable endeavours:

- 5.3.1 to restore as soon as reasonably practicable any failed Recording Point or Monitoring Point;
- 5.3.2 pending such restoration, to compile such information from manual records and other sources, including the Train Operator, and otherwise to substitute such information as is appropriate to reflect as accurately as is reasonably practicable the actual performance of the relevant Trains operating such Services for the purposes of this Schedule 8.

5.4 *Provision of information by Train Operator*

The Train Operator shall record and shall continue to record such information as RfL(I) may reasonably require and which it is reasonable to expect the Train Operator to have or procure in connection with any Seconds Delay that may arise and shall provide such information to RfL(I) promptly after such information first becomes available to the Train Operator.

5.5 *Notification*

RfL(I) shall promptly notify the Train Operator upon RfL(I) becoming aware of any failure or any likely failure to record accurately the information which it is required to record under paragraphs 5.1 and 5.2. Any such information shall be in sufficient detail to enable the Train Operator to institute the recording of such information in connection with the Trains operating the Services for which the recording of information is subject to such failure or likely failure as the Train Operator may reasonably achieve. RfL(I) shall institute such recording as soon as it is reasonably able following receipt of the notification from RfL(I) and will provide RfL(I) with the resulting information no later than 1700 two Working Days following the Day on which it was recorded.

6 Allocation of responsibility for Seconds Delay

6.1 *Assessment of incidents causing Seconds Delay*

6.1.1 In assessing the cause of any Seconds Delay there shall be taken into account all incidents contributing thereto including:

- (a) the extent to which each party has taken reasonable steps to avoid and/or mitigate the effects of the incidents; and
- (b) where a Restriction of Use overruns due to the start of such Restriction of Use being delayed by a late running Train operating a Service, the incident(s) giving rise to that late running.

6.1.2 The parties shall take reasonable steps to avoid and mitigate the effects of any incidents upon the Trains operating the Services and any failure to take such steps shall be regarded as a separate incident.

6.1.3 RfL(I) shall identify:

- (a) in respect of each incident recorded under paragraph 5.1.5 as causing Monitoring Point Seconds Delay, the extent to which that incident caused each of the Monitoring Point Seconds Delay; and
- (b) in respect of each incident recorded under paragraph 5.1.2, the extent to which that incident caused the Cancelled Stop.

17 Review

17.1 Appendices 1 and 2 to this Schedule 8 and the definitions of RfL(I) SPP Threshold and Train Operator SPP Threshold are the Matters Subject to Rebenchmarking. The Matters Subject to Rebenchmarking may be recalibrated in accordance with this paragraph 17:

17.1.1 to reflect the operation of Services on the CCOS during the Initial Benchmarking Period; and

17.1.2 following the occurrence of a Material Performance Change.

17.2 Within:

17.2.1 four (4) months of the expiry of the Initial Benchmarking Period; or

17.2.2 twelve (12) months of the occurrence of a Material Performance Change,

(as the case may be), RfL(I) shall be entitled to require that the Matters Subject to Benchmarking are recalibrated in accordance with this paragraph 17 by submitting a Proposal for Change pursuant to Part C of the CCOS Network Code. The purpose of any such Proposal for Change shall be to

determine what changes, if any, should be made to the Matters Subject to Benchmarking in such circumstances to achieve RfL(I)'s objectives for the CCOS set out in the Sponsors' Requirements.

17.3 RfL(I) and the Train Operator acknowledge and agree that:

17.3.1 any recalibration of the Matters Subject to Rebenchmarking in relation to this Contract may affect other train operators under other track access contracts; and

17.3.2 those effects (and any consequential changes required to those other track access contracts) will need to be taken into account as part of such recalibration exercise.

17.4 Following the Matters Subject to Rebenchmarking being revised in accordance with Part C of the CCOS Network Code and subject to paragraph 17.5:

17.4.1 Appendices 1 and 2 to this Schedule 8 and the definitions of RfL(I) SPP Threshold and Train Operator SPP Threshold shall be deemed to have been amended to reflect such revised values from the Rebenchmarking Implementation Date:

17.4.2 the calculations of the Performance Payments previously undertaken pursuant to this Schedule 8 shall be repeated using the revised Matters Subject to Rebenchmarking in substitution for the original Matters Subject to Rebenchmarking with effect from the first Period to commence on or after the date on which the changes to this Contract take effect; and

17.4.3 RfL(I) shall notify the Train Operator within 35 days after the end of the Period in which this Contract is amended of the amount of any payment required from either party to the other to take account of the repeated calculations and the provisions of paragraphs 12, 13 and 16 shall apply in respect of those amounts.

17.5 Without prejudice to RfL(I)'s and the Train Operator's respective rights under the Act and the Access Regulations, if the Train Operator (or any other train operator using the CCOS) reasonably believes that:

17.5.1 a Material Performance Change has not occurred; and/or

17.5.2 the proposed changes to the Matters Subject to Benchmarking do not achieve RfL(I)'s objectives for the CCOS set out in the Sponsors' Requirements,

then that Train Operator shall promptly notify RfL(I) and any other train operators using the CCOS and the matter shall be referred to Arbitration in accordance with the CCOS ADRR in force at the relevant time to determine that:

(a) a Material Performance Change has occurred; and/or

(b) the proposed changes to the Matters Subject to Benchmarking do achieve RfL(I)'s objectives for the CCOS set out in the Sponsors' Requirements;

or

(c) a Material Performance Change has not occurred; and/or

(d) which changes to the Matters Subject to Benchmarking should be made to the Matters Subject to Benchmarking do achieve RfL(I)'s objectives for the CCOS set out in the Sponsors' Requirements,

and, subject to Clause 17.6, such determination will be binding on RfL(I), the Train Operator and each other train operator using the CCOS.

17.6 Any amendments to the Matters Subject to Rebenchmarking shall take effect only when it has been approved by the ORR under section 22 of the Act. Accordingly, as soon as reasonably practicable after any such amendment is agreed or determined in accordance with this paragraph 17 the parties shall ensure that the ORR is furnished with such amendment and such information and evidence as the ORR requires to decide whether or not to approve the amendment.

"SPP Indexation Figure" means the figure calculated in accordance with paragraph 18.5.2.

18.2 *Indemnities*

18.2.1 Subject to Clause 11, RfL(I) shall indemnify the Train Operator against all Relevant Losses in accordance with this paragraph 18 if, and to the extent that, the RfL(I) Performance Sums payable by RfL(I) in respect of any Period exceeds the relevant RfL(I) SPP Threshold.

18.2.2 Subject to Clause 11, the Train Operator shall indemnify RfL(I) against all Relevant Losses in accordance with this paragraph 18 if, and to the extent that, the Train Operator Performance Sums payable by the Train Operator in respect of any Period exceeds the relevant Train Operator SPP Threshold.

18.2.3 Relevant Losses for the purpose of providing compensation for sustained poor performance under this paragraph are to be measured in comparison to:

(a) (in the case of paragraph 18.2.1) the position the Train Operator would have been in had RfL(I) met the RfLPP; or

- (b) (in the case of paragraph 18.2.2) the position RfL(I) would have been in had the Train Operator met the TPP.

18.3 Determination of Relevant Losses

Subject to paragraph 18.4, the liability of a party under paragraph 18.2 for sustained poor performance ("**SPPL**") shall be determined in accordance with the following formula:

$$SPPL = RL - PS$$

where:

RL means the party's Relevant Losses arising as a direct result of Seconds Delay and Cancelled Stops during the relevant Period, in each case insofar as these do not arise as a result of an incident for which that party is allocated responsibility pursuant to paragraph 6.2 or 6.3 (as the case may be); and

PS means:

- (a) (in the case of RfL(I) indemnifying the Train Operator) the sum of all values of RfLPS (as defined in paragraph 10) to be calculated by deducting the sum of all values of RfLPS for which the Train Operator is liable from the sum of all values of RfLPS for which RfL(I) is liable in each case in respect of the relevant Period; or
- (b) (in the case of the Train Operator indemnifying RfL(I)) the sum of all values of TOPS (as defined in paragraph 11) to be calculated by deducting the sum of all values of TOPS for which RfL(I) is liable from the sum of all values of TOPS for which the Train Operator is liable in each case in respect of the relevant Period.

18.4 Restrictions on claims

A party shall not be entitled to make a claim for Relevant Losses pursuant to this paragraph 18 if and to the extent that it has previously recovered those Relevant Losses, whether under this paragraph 18 or otherwise.

18.5 SPP Indexation

18.5.1 The values of RfL(I) SPP Threshold and Train Operator SPP Threshold shall be multiplied by the SPP Indexation Figure for the Relevant Year.

18.5.2 The SPP Indexation Figure in Relevant Year t shall be derived from the following formula:

$$SPPI_t = \left[1 + \frac{(RPI_{t-1} - RPI_{2020})}{RPI_{2020}} \right] \times IIF$$

where:

- SPPI_t means the SPP Indexation Figure in Relevant Year t;
- RPI_{t-1} means the RPI published or determined with respect to the month of November in Relevant Year t-1;
- RPI₂₀₂₀ means the RPI published or determined with respect to the month of November 2020; and
- IIF means the Initial Indexation Factor.

19.1 *Definitions*

In this paragraph 19, unless the context otherwise requires:

"Paragraph 11 Statement" means the statement of any Performance Sums for which Network Rail or the Train Operator is liable which is provided by Network Rail to the Train Operator under paragraph 11.1 of schedule 8 of the Network Rail Track Access Contract;

"NR Minutes Delay" has the meaning ascribed to "Minutes Delay" in the Network Rail Track Access Contract;

"NR TPP" has the meaning ascribed to "Train Operator Performance Point" in the Network Rail Track Access Contract;

19.2.2 RfL(I) is allocated responsibility for such Monitoring Point Seconds Delay pursuant to paragraph 6.2 as a consequence of those Monitoring Point Seconds Delay being caused by an incident for which RfL(I) is allocated responsibility;

- 19.2.3 such Monitoring Point Seconds Delay do not arise as a consequence of such Service operated by such Train triggering the Recording Point closest to the entry point to the CCOS from the NR Network at a Boundary later than it is scheduled in the Applicable Timetable to trigger such Recording Point;
- 19.2.4 such Service operated by such Train triggers the Monitoring Point closest to the exit point from the CCOS onto the NR Network at least 3 minutes later than it is scheduled in the Applicable Timetable to trigger such Monitoring Point;
- 19.2.5 such Service operated by such Train causes NR Minutes Delay;
- 19.2.6 the sole cause of such NR Minutes Delay is the matters referred to in paragraphs 19.2.1, 19.2.2 and 19.2.4; and
- 19.2.7 the Train Operator is allocated responsibility for such NR Minutes Delay under the terms of the Network Rail Track Access Contract,

then, subject to paragraph 19.3, RfL(I) shall pay to the Train Operator an amount equal to the demonstrable proportion of the NR TPS (having taken into account the NR TPP) that the Train Operator is required to pay to Network Rail under the Network Rail Track Access Contract that directly and demonstrably results from the matters referred to in paragraphs 19.2.1 to 19.2.7 (inclusive) (the "**NR TPS Reclaim Amount**").
