Transport for London

Map data

The purpose of this document is to provide the requirements for data gathering in relation to maps used on TfL's digital sites and services, including www.tfl.gov.uk.

Audience

- Developers
- Designers

Requirements

1. We prefer any data used to be freely available (Open) and gathered in a way that is free of any licensing constraints

2. It is common for Ordnance Survey derived data to be used for mapping. If you use Ordnance Survey derived data, you **must** comply with the latest Ordnance Survey Public Sector Mapping Agreement requirements

3. You **must** provide evidence of how data has been collected

4. All data and associated materials **must** be passed to TfL Online upon completion

5. No copyright or licence is to be placed upon the data produced or restriction placed upon its use

6. TfL Online **must** be able to add to, edit, change, replicate and share the data freely, internally and externally, as required

7. TfL Online **must not** be tied in to anything that would require the continued use of your services

8. All data **must** be provided as WGS 84 aligned in any format that is open and readable, eg as a co-ordinates string or as KML

NOTE: You must refer to www.tfl.gov.uk/toolkit for the latest version of this document

Why we do this

We are committed to the open data agenda and want to ensure all data we use and publish is available in an open format that promotes accessibility, accuracy and consistency.

Type:	Standard
Owner:	TfL Online Compliance
Department:	TfL Online
