

Junior Road Safety Officer

Activity idea: **Junior Road Safety Officer**

Resource needed: www.tfl.gov.uk/streets/jrso

This site is an excellent way to encourage pupils to take responsibility for road safety within their school and local community. It gets to the heart of citizenship teaching by providing pupils with a position of responsibility within the school as a Junior Road Safety Officer. It encourages pupils to take an active role in assemblies and within the School Council. All the necessary resources are provided in the pack, including safety information, posters and activity ideas. If your school has a working School Council then this could be a valuable new addition to your next agenda!
